ENGINEERING CHANGE NOTICE

Date: 4/21/2006
Subject: Ball Valve Assembly Improvements

Ball Valve Assemblies:

Mueller Refrigeration is changing from stepped to conical tubes on our 2 5/8" reduced port and 3 1/8" reduced port ball valve assemblies. This change will result in the following:
Increased flow capacity

No effect on maximum working pressures

Targeted implementation date for this change is 3rd Quarter 2006.
