

MUELLER REFRIGERATION, LLC

121 Rogers Street
Hartsville, TN 37074
P 615.374.2124

Job Title: CNC Machinist

Posting Date: January 6, 2025

Location: Hartsville, TN

Full Time, 40 hours per week

Night shift and Midnight shift positions available

Job Responsibilities:

- Reads and interprets engineering blueprints, methods sheets, gage list and work order to determine required tooling and operational sequences.
- Installs and adjusts alignment of tooling such as drills, cutters, dies and holding devices, using templates, measuring instruments, and hand tools.
- Verifies machine settings such as feeds and speeds, applying knowledge of shop mathematics.
- Monitors machine operation and moves controls to align and adjust position of work pieces.
- Capable of understanding and editing existing G-code programs and offsets.
- Inspects first-piece and verifies conformance at machine setup.
- Performs basic preventive maintenance and cleaning of machines and equipment.
- Communicates quality, safety or machinery problems to Supervisor.

Qualifications:

- Minimum of 3 years of experience setting up CNC mills and/or lathes in a metalworking environment.
- Technical education preferred.

Employee Benefits:

- \$26 to \$29 per hour to start, with higher rates available for advanced skill and experience
- Competitive benefits package including paid time off, annual bonus, 401k with company match, medical, dental and vision coverage, along with company provided short and long term disability coverage and group life insurance.
